Summer Weather Safety

Severe Weather

- Thunderstorms can produce tornadoes, strong wind, large hail, and lightning
- Practice a severe weather plan for home and work
- Make a communications plan so you can contact loved ones

Summer Weather Safety

Tornadoes

- Winds from tornadoes can exceed 200 mph
- Flying debris is most dangerous
- Seek a sturdy shelter in an interior room away from windows on the lowest floor and cover your head

Summer Weather Safety

NWS Tornado Products

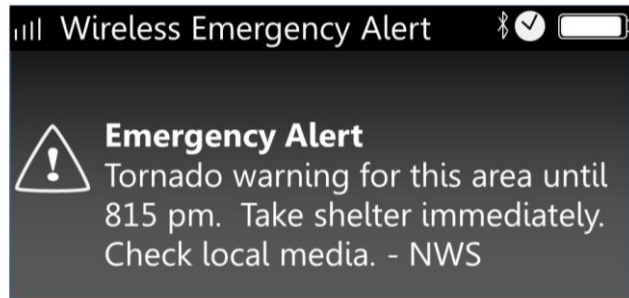

Tornado Warning

Tornado expected! Seek shelter.
A tornado is occurring or will shortly at this location on the map.

Tornado Watch

Tornado possible. Be prepared.
Weather conditions favor thunderstorms capable of producing tornadoes at this location on the map.

weather.gov/safety

Summer Weather Safety

Thunderstorms

- Severe thunderstorms produce strong wind and/or large hail
- Take shelter in a sturdy structure away from windows
- A vehicle is also a safe location

NWS Severe Thunderstorm Products

Severe Thunderstorm Warning

Severe storms expected! Seek shelter.
Large hail or damaging wind is occurring
or will shortly at this location on the map.

Severe Thunderstorm Watch

Severe storms possible. Be prepared.
Weather conditions favor thunderstorms
capable of producing large hail or
damaging wind at this location on the map.

Summer Weather Safety

Lightning

- Thunderstorms produce lightning
- Lightning kills an average of 30 people every year
- Take shelter inside a sturdy structure
- A vehicle is also a safe location

weather.gov/safety

Summer Weather Safety

Hurricanes

- Tropical storms and hurricanes can produce deadly flooding
- Storm surge is ocean water that is brought inland and floods areas along the coast
- Heavy rain can cause flooding hundreds of miles inland

Summer Weather Safety

Hurricanes

- Prepare your home by protecting it from flying debris
- Board up windows with plywood or approved shutters
- Bring in loose items from outside such as lawn furniture
- Secure your boat if you have one

Summer Weather Safety

Hurricanes

- Hurricanes can strengthen quickly
- Listen to local authorities and follow evacuation orders
- Drive carefully and contact your loved ones once you've reached your safe location

Summer Weather Safety

NWS Hurricane Products

Hurricane Warning

Hurricane expected! Seek shelter.
Hurricane force winds are expected in your area. Seek shelter in a sturdy structure or evacuate if needed.

Hurricane Watch

Hurricane possible. Be prepared.
Hurricane force winds are possible in your area. Prepare your home by boarding up windows and moving loose items indoors. Have an emergency supply kit ready.

 Wireless Emergency Alert  

 **Emergency Alert**
Hurricane warning for this area.
Check local media and authorities.

Summer Weather Safety

Flooding

- Flooding is often caused by heavy rain in the summer
- More than half of all flood fatalities are vehicle-related
- Never drive through flood waters

Summer Weather Safety

NWS Flood Products

Flood Warning

Flooding expected! Take Action.
Confidence is high that flooding which poses a significant threat to life and property is occurring or will shortly. Seek higher ground if you are in a flood-prone area. Never drive through flood waters!

Flood Watch

Flooding possible. Be Prepared.
Confidence is medium that flooding may develop. Find out if you are in a flood-prone area. Check the forecast and be ready to take action if a flood warning is issued.

Summer Weather Safety

Heavy Rain

- Heavy rain on saturated soil can lead to flooding
- More than half of all flood fatalities are vehicle-related
- Obey road signs and never drive through flood waters

Summer Weather Safety

NWS Flood Products

Flood Warning

Flooding expected! Take Action.
Confidence is high that flooding which poses a significant threat to life and property is occurring or will shortly. Seek higher ground if you are in a flood-prone area. Never drive through flood waters!

Flood Watch

Flooding possible. Be Prepared.
Confidence is medium that flooding may develop. Find out if you are in a flood-prone area. Check the forecast and be ready to take action if a flood warning is issued.

Summer Weather Safety

Extreme Heat

- Heat and humidity take a toll on the body
- Know the signs of heat illness
- Reschedule outdoor work and strenuous activities until the coolest time of the day
- Stay hydrated by drinking plenty of water

Summer Weather Safety

Extreme Heat

- Sunburn and heat illness can be avoided
- Apply and reapply sunscreen to protect your skin from sunburn
- Stay hydrated by drinking plenty of water

Summer Weather Safety

NWS Heat Products

Excessive Heat Warning

Excessive Heat Expected! Take Action. Confidence is high that extremely hot weather will cause significant stress on the people and animals unless precautionary measures are taken. Avoid direct sunlight, drink plenty of fluids, and find a cool indoor place is possible.

Excessive Heat Watch

Excessive Heat Possible. Be Prepared. Confidence is medium that extremely hot weather will develop across the region. Have a plan in place to avoid strenuous activity during the warmest parts of the day. Make sure children, elderly, and pets are taken care of in case extreme heat develops.

Summer Weather Safety

Tsunamis

- A tsunami is one of the most powerful and destructive forces of nature
- Know nature's warnings: strong or long quake, sudden ocean rise or fall, ocean roar
- Respond to warnings: move to high ground or inland

Summer Weather Safety

NWS Tsunami Products

Tsunami Warning

A Tsunami is expected! Take Action!
Danger! A tsunami that may cause widespread flooding is expected or occurring. Dangerous coastal flooding and powerful currents are possible and may continue for several hours or days after initial arrival. Move to high ground or inland immediately!

weather.gov/safety

Summer Weather Safety

Rip Currents

- Millions of people will travel to the beach this summer
- Learn about rip currents before heading to the beach
- Plan for your trip by checking the forecast at [weather.gov](https://www.weather.gov)

Summer Weather Safety

NWS Rip Current Products

RIP CURRENTS

Break the Grip of the Rip!

Rip Current Statement

Rip Currents are Expected! Use Caution. Conditions are favorable for rip currents along the beach. If you are caught in a rip current, escape by swimming in a direction following the shoreline until you are out of the rip current.

weather.gov/safety

Summer Weather Safety

Wildfire

- Wildfires are most often started by lighting or humans
- Stay with your fire when camping
- Fully extinguish your fire when finished
- Never burn on dry windy days

Summer Weather Safety

Wildfire

- If you encounter a wildfire, drive or walk away from the smoke and flames immediately
 - Call 911 and report the fire
- If told to evacuate, follow instructions from local officials
 - Follow the evacuation route and contact loved ones once you've reach safety

Summer Weather Safety

Air Quality

- Smoke from wildfires can travel thousands of miles and create poor air quality
- Keep door and windows closed to reduce infiltration into your home

© Tricia Simo Kushi

weather.gov/safety

Summer Weather Safety

Air Quality

- Exhaust from vehicles is another source of air pollution
- Harmful buildup of ground-level ozone can trigger health problems such as asthma
- Limit strenuous outdoor activity on days with poor air quality

Summer Weather Safety

Drought

- The heat of summer can lead short-term droughts which affect vegetation and agriculture
- Long term droughts can impact large reservoirs and the people that depend on them
- Implement water conservation efforts to minimize drought
